MENOMINEE COUNTY

LABOR MARKET

TRENDS

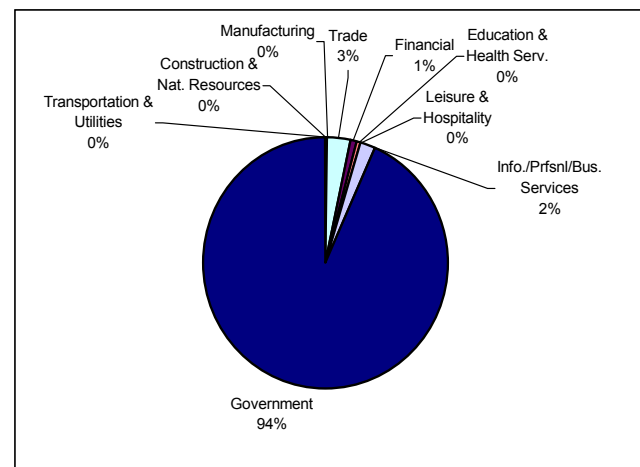

Menominee County...

has one of the lowest percentages of workers employed in the manufacturing sector in the State of Wisconsin. Less than 1 percent of the workers are employed in this sector, compared to under 19 percent for the State of Wisconsin and just over 11 percent for the U. S. The majority of jobs in the county are with the Menominee Tribe. Although most jobs are listed as government, they vary a great deal. The jobs in the casino employ a large number of the workers in the county, however, they are listed as government, as they are owned by the tribe which is listed as a government entity.

Most workers live and work in the county, although, nearly 30 percent of the workers do leave to work outside the county. However, the county has an influx of 900 workers while only 300 leave for work outside of the county.

Employment by Industry in Menominee County: 2002

The annual average wage in 2002 for employers in the various major industry sectors was \$23,659 in public administration, \$27,765 in health and education, and \$14,788 in trade, transportation and utilities. The average annual wage for all employees was \$23,444. This was 72.3 percent of the average wage of \$32,422 for all workers in the state.
